

Keys to Improving HPV Vaccination Coverage

FALL 2022 SEMINAR SERIES

Do you need help getting your state's HPV vaccination rates back on track? This series of three FREE virtual seminars are designed to build your skills and enhance the capacity of state teams to improve HPV vaccination coverage.

Many state-level teams have been focused on COVID-19 efforts or have been unable to return focus to HPV vaccination. The pandemic has disrupted HPV vaccination, with more than 3.5 million doses missed since March 2020. Now is the time to recommit to addressing HPV coverage gaps, which remain significant due to the effects of the pandemic.

Events Organized in Association with

Attend These Critical Seminars!

SEPTEMBER 20

12-1:15 pm ET

Putting HPV Vaccination Data to Work

Learn how you can leverage HPV vaccination coverage data to inform action.

OCTOBER 18

12-1:15 pm ET

Implementing Best Practices to Improve HPV Vaccination Coverage

Discover the best practices to improve HPV vaccination coverage effectively. Learn from successful programs from across the country.

NOVEMBER 15

12-1:15 pm ET

Monitoring Process and Impact of Efforts to Improve HPV Vaccination Coverage

Get strategies for monitoring the process and impact of efforts to improve HPV vaccination coverage. This session also will attend to processes, such as coalition functioning and planning for 2023.

CEUs will be offered for these sessions.
