

# Vaccine Vitals

from CPP Buying Group

## CPP Program - Key Updates

### Vaccine Management Summit - Register Today!

Registration is now open for the CPP Vaccine Management Summit. This event will take place on Wednesday, **May 3, 2023** at the Quest Conference Center located in Westerville, OH.

This half-day conference will feature keynote speaker, Dr. Ari Brown, who will provide insight into *“Talking to People About Vaccine Concerns.”* Dr. Brown is coming to us from Austin TX. In addition to her work as a practicing pediatrician and owner of “411 Pediatrics,” she is also a best-selling author and a spokeswoman for the AAP.

The remainder of the time will be spent engaging in lively user discussions through breakout sessions on various vaccine management topics, including:

- Effective Inventory Management
- Best Practices for Improving Immunization Rates
- Legislative Update & How to Get Involved
- Strategies for Overcoming HPV Vaccination Challenges
- Partnering with Payers to Drive Immunizations

### Flu Pre-Book Reminder and Deadlines

Please don't forget about pre-booking your flu vaccines for the 2023-2024 flu season. Here is a summary of details and deadline dates from our flu vaccine partners:

**Sanofi** – Updated pricing and program details for Fluzone®, High-Dose Fluzone and Flublok® vaccines for the 2023-2024 flu season can be obtained by [contacting the CPP office](#).

Pre-book by **March 31, 2023** to receive the CPP member discount, delivery commitment and returns allowance. **CPP members can earn a 1% rebate on all influenza vaccines purchased directly through Sanofi by December 31, 2023. Flu vaccines must be purchased through your Sanofi account that is linked to the CPP Sanofi Mainline contract to be eligible.**

- To participate, confirm your pre-book reservation with Sanofi by logging onto [www.VaccineShoppe.com](http://www.VaccineShoppe.com).

**AstraZeneca** – Updated pricing and program details for FluMist® can be obtained by [contacting the CPP office](#). Place reservations through authorized distributors of FluMist® (McKesson, FFF Enterprises and Besse Medical) or by visiting the [FluMist website](#).

- Pre-book by **April 30, 2023** to receive the CPP member discount, delivery commitment and returns allowance.

To participate, please complete the [declaration form](#) and send it to CPP at [CPP@nationwidechildrens.org](mailto:CPP@nationwidechildrens.org) or fax it to 614-722-2149. If you have already submitted a declaration form to CPP to participate in this discount opportunity in prior years, you **do not** need to complete another one.

## Would you like to receive your CPP rebates electronically?

If you would prefer to receive your CPP rebate via electronic deposit instead of paper check, please [contact the CPP office](#) to obtain an ACH authorization form.

## Immunization Schedules

The CDC has published updated immunization schedules for 2023. Among the notable updates are:

- COVID-19 vaccines for children, adolescents and adults.
- New flu language has been added.
- New measles, mumps, and rubella (MMR) vaccine, a hepatitis B vaccine, and a new pneumococcal vaccine for children and seniors.
- Guidance on use of the 20-valent conjugate pneumococcal vaccine in previously immunized adults.

**Table 1** Recommended Child and Adolescent Immunization Schedule for ages 18 years or younger, United States, 2023

These recommendations must be read with the notes that follow. For those who fall behind or start late, provide catch-up vaccination at the earliest opportunity as indicated by the green bars. To determine minimum intervals between doses, see the catch-up schedule (Table 2).

Vaccine	Birth	1 mo	2 mos	4 mos	6 mos	9 mos	12 mos	15 mos	18 mos	19-23 mos	2-3 yrs	4-6 yrs	7-10 yrs	11-12 yrs	13-15 yrs	16 yrs	17-18 yrs
Hepatitis B (HepB)	1 <sup>st</sup> dose	2 <sup>nd</sup> dose															
Rotavirus (RV): RV1 (2-dose series), RV2 (3-dose series)			1 <sup>st</sup> dose	2 <sup>nd</sup> dose	See Notes												
Diphtheria, tetanus, acellular pertussis (DTaP-2)			1 <sup>st</sup> dose	2 <sup>nd</sup> dose	3 <sup>rd</sup> dose		4 <sup>th</sup> dose					5 <sup>th</sup> dose					
Human papillomavirus type 9 (HPV)			1 <sup>st</sup> dose	2 <sup>nd</sup> dose	See Notes		3 <sup>rd</sup> dose										
Pneumococcal conjugate (PCV13, PCV15)			1 <sup>st</sup> dose	2 <sup>nd</sup> dose	3 <sup>rd</sup> dose		4 <sup>th</sup> dose										
Inactivated poliovirus (IPV <18 yrs)			1 <sup>st</sup> dose	2 <sup>nd</sup> dose			3 <sup>rd</sup> dose										See Notes
COVID-19 (11-17 yrs)										2 of 3-dose primary series and booster (See Notes)							
Influenza (IV4)										Annual vaccination 1 or 2 doses				Annual vaccination 1 dose only			
Influenza (LAIV4)													Annual vaccination 1 or 2 doses				Annual vaccination 1 dose only
Measles, mumps, rubella (MMR)					See Notes		1 <sup>st</sup> dose					2 <sup>nd</sup> dose					
Varicella (VAR)							1 <sup>st</sup> dose					2 <sup>nd</sup> dose					
Hepatitis A (HepA)					See Notes					2-dose series (See Notes)							
Tetanus, diphtheria, acellular pertussis (Tdap >7 yrs)															1 dose		
Human papillomavirus (HPV)															See Notes		
Meningococcal (MenACWY-D >7 mos, MenACWY-COM >2 mos, MenACWY-11 >2 years)										See Notes					1 <sup>st</sup> dose	2 <sup>nd</sup> dose	
Meningococcal B (MenB-4C, MenB-FHbp)																	See Notes
Pneumococcal polysaccharide (PPSV23)																	See Notes
Dengue (DENVACY; 9-16 yrs)																	See Notes

■ Range of recommended ages for all children  
■ Range of recommended ages for catch-up vaccination  
■ Range of recommended ages for certain high-risk groups  
■ Recommended vaccination can begin in this age group  
■ Recommended vaccination based on shared clinical decision-making  
■ No recommendation/not applicable

**Table 1** Recommended Adult Immunization Schedule by Age Group, United States, 2023

Vaccine	19–26 years	27–49 years	50–64 years	≥65 years
COVID-19	2- or 3- dose primary series and booster (See Notes)			
Influenza inactivated (IIV4) or Influenza recombinant (RIV4)	1 dose annually			
Influenza live, attenuated (LAIV4)	1 dose annually			
Tetanus, diphtheria, pertussis (Tdap or Td)	1 dose Tdap each pregnancy; 1 dose Td/Tdap for wound management (see notes)			
Measles, mumps, rubella (MMR)	1 dose Tdap, then Td or Tdap booster every 10 years			
Measles, mumps, rubella (MMR)	1 or 2 doses depending on indication (if born in 1957 or later)			For healthcare personnel, see notes
Varicella (VAR)	2 doses (if born in 1980 or later)		2 doses	
Zoster recombinant (RZV)	2 doses for immunocompromising conditions (see notes)			2 doses
Human papillomavirus (HPV)	2 or 3 doses depending on age at initial vaccination or condition	27 through 45 years		
Pneumococcal (PCV15, PCV20, PPSV23)	1 dose PCV15 followed by PPSV23 OR 1 dose PCV20 (see notes)			See Notes
Hepatitis A (HepA)	2, 3, or 4 doses depending on vaccine			
Hepatitis B (HepB)	2, 3, or 4 doses depending on vaccine or condition			
Meningococcal A, C, W, Y (MenACWY)	1 or 2 doses depending on indication, see notes for booster recommendations			
Meningococcal B (MenB)	19 through 23 years	2 or 3 doses depending on vaccine and indication, see notes for booster recommendations		
Haemophilus influenzae type b (Hib)	1 or 3 doses depending on indication			

  Recommended vaccination for adults who meet age requirement, lack documentation of vaccination, or lack evidence of past infection  
  Recommended vaccination for adults with an additional risk factor or another indication  
  Recommended vaccination based on shared clinical decision-making  
  No recommendation/Not applicable

## Important Dates

- March 31** – Sanofi flu vaccine pre-book deadline
- April 30** – AstraZeneca flu vaccine pre-book deadline
- May 3** – Vaccine Management Summit
