Additional Considerations

- When discussing line of credit and spending habits keep in mind:
 - Periods of elevated vaccine spend (flu, price increases)
 - Opportunities for partial payment throughout the month

Important Disclosure: This information was compiled on 3/19/2025. Please be advised to visit or call the financial group you are considering to confirm current offers and terms and conditions of the above credit cards.

Credit Card Options for Your Practice

Why use a credit card to purchase your vaccines?

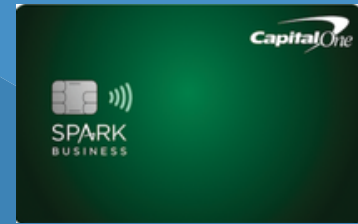

- Utilizing a credit card can free up cash flow for your practice and provide cash back benefits.
- Automatic payment can be set up for vaccine vendors, helping you take advantage of prompt pay discounts

See table for a breakdown of savings for three different credit card options
