

Pfizer COVID-19 Vaccines

Product Availability & Returns Policy

Pfizer is updating the 2025-2026 COVID-19 vaccine to target the FDA-preferred LP.8.1 strain, while shipping 2024-2025 vaccines through summer.

2024-2025 Vaccine Shipping Timeline

Pfizer will ship 2024-2025 formula vaccines until August 8, 2025, supporting inventory management and ensuring a smooth transition when the 2025-2026 formula launches upon FDA approval.

Product Expiry & Storage

Eligible individuals may receive vaccines until product expiry or regulatory changes. ULT products stored at 2-8°C require updated 10-week refrigerated expiry labels for proper tracking.

2024-2025 Return Policy

Returns for vaccines expiring before September 1, 2025, follow the current window (Aug 1–Sept 15), while those expiring later have an extended window through November 1, 2025, with full credit.
